

ECCV 2012 Call for Papers

Deadline for submissions: 5 March 2012
<http://eccv2012.unifi.it>

ECCV 2012 solicits the submission of high quality previously unpublished research papers on any aspect of computer vision. Contributions from related disciplines (such as machine learning, computer graphics, biological vision, mathematics) which illuminate the state-of-the-art in computer vision are also of interest, together with papers on longer term research challenges which point to new research directions or brave perspectives that might pave the way to innovation.

The conference website <http://eccv2012.unifi.it> provides instructions for paper submission as well as calls for tutorials, workshops, demos, and industrial exhibits.

Accepted papers will be presented in the oral and poster sessions of the ECCV 2012 technical program. Continuing the top quality tradition of ECCVs, it will be a single-track conference with double-blind peer review process.
